Attending bird shows

If you attend bird shows, agricultural shows or other events where birds are present, maintain good hygiene. Additional steps you can take include:

Do not take any birds to a show if there are signs of illness in your flock.

All bird equipment and permanent carrying containers should be cleaned and disinfected before and after a show.

At the show, avoid handling birds other than your own, if possible.

When returning home, show birds should be kept separate (quarantined) from your other birds for 14 days before being reintroduced to the home flock.

Keep a register of all bird movements on and off your property.
